Calvine Road Improvement Project

~Kingsbridge Drive to Vineyard Road~

Construction Phase

November 2005

Project Description

The Calvine Road Improvement Project will widen Calvine Road from 2 travel lanes to 4 travel lanes between Kingsbridge Drive and Vineyard Road. Six-foot wide bike lanes will be installed on Calvine Road along with a fully landscaped, raised center median. New roadside ditches and driveway culverts will be constructed on both the north and south sides of Calvine Road. The project also includes the installation of a water transmission main and sewer trunk pipeline, storm drain improvements, and bridge widening at Laguna Creek.

Along with these improvements, traffic signals will be installed at the intersections of Calvine Road and Bradshaw Road, Bader Road, and Vineyard Road. A traffic signal will also be installed at the intersection of Calvine Road and Grant Line Road.

This project is a cooperative effort by the County of Sacramento and the City of Elk Grove with funding by Vineyard Public Financing Plan Development Impact Fee Program, the Elk Grove Roadway Fee Program, the Sacramento County Water Agency Zone 40 Program, and County Sanitation District No. 1.

Project Update

- Work on the Laguna Creek Bridge and the water transmission main is essentially complete.
- The future westbound lanes are paved and the associated storm drain system has been installed.
- Work will begin on the south side of Calvine Road in the future eastbound lanes and will continue into winter, weather permitting.
- The anticipated completion date for the project is Summer 2006.

Before Construction

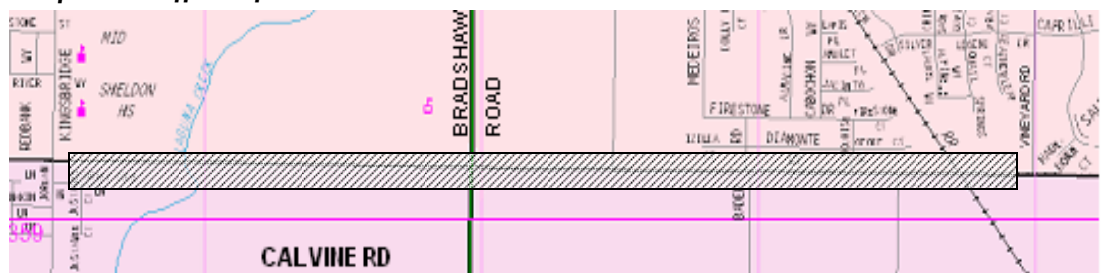

Simulation of After Construction Condition

Traffic Alert!

- Traffic along Calvine Road east of Kingsbridge Drive to west of Vineyard Road is scheduled to be shifted onto the newly constructed pavement on Saturday, November 5, 2005.
- Traffic shift will not impact trash pick-up and mail delivery for property owners on the south side of Calvine Road.
- The traffic shift will remain in effect until the median and south side pavement is reconstructed in the spring.

Proposed Traffic Shift Limits
